

FleetReporter add-on for MTrax

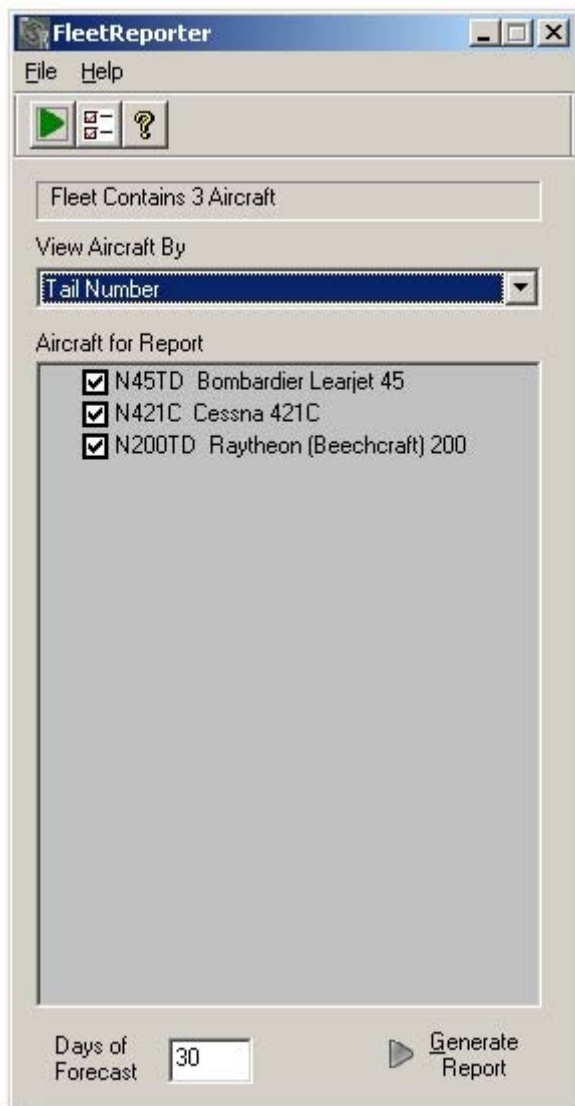

We have been working hard to bring you the latest in fleet reporting. The MTrax FleetReporter add-on will expand your reporting capability to include the following features:

- Organize your MTrax files into multiple fleets
- Define an unlimited number of fleets using your own descriptions
- View or print your fleet Due List reports by tail number, due date or days remaining
- Adjust days of forecast, filter and sort to get only the information you need
- Several report styles to choose from
- Data exporting and information sharing
- Export any of your MTrax reports to Excel, Database, HTML, PDF and other formats.
- You can even email or publish your reports to your network or website!
- FREE 25 day evaluation or purchase FleetReporter add-on for only \$249

With FleetBuilder, you can organize your MTrax files into "fleets". You can even add the same aircraft to several fleets so that reporting is always easy and convenient.

Create reports for any of your defined fleets. You can view and report by tail number, Due date or Days remaining and adjust Days of Forecast for your reports.
