IApproach™ Regulatory

Subscription includes ADs, related Service Info, TCDS, FARs, ACs, STCs, Airworthiness Alerts, Special Airworthiness Information Bulletins, Selected Handbooks, AIM, interactive FAA Forms, Weight and Balance and more. Subscription choices: Basic, Seasonal, OnDemand, Monthly, Biweekly or Network version.

IApproach with Internet Delivery

IApproach is installed on your hard drive and updated automatically using your high-speed internet connection—there's no waiting for CDs. It features a scheduler that allows you to specify when to check for updates (i.e. every day at midnight).

IApproach Basic

The perfect alternative to the FAA website or other budget-based products. Perform make/model AD searches and save your compliance reports. If you require more features such as full text searching, aircraft templates, coverage for corporate aircraft, networking, more frequent updates or internet delivery of updates, Tdata offers several different packages to fit your needs.

MTrax™ Maintenance Tracking Software

Track all maintenance components and inspections for an unlimited number of aircraft. One easy entry updates your hours, cycle counts or RIN and filters down to all affected components. Print due lists, status reports and component cards at the click of a mouse. Export to Excel®, html and PDF®.

iTrax™ Inventory Tracking Software

Track an unlimited number of inventory items and parts. Track serialized parts and maintain parts' conditions. Choose from a variety of powerful reports and export to Excel® and PDF®.
